PROFILE

I'm a Full-Stack Developer with strong expertise in Front-end and Mobile development, complemented by solid Back-end experience. I deliver complete solutions — from MVP to production — for web and mobile platforms, covering the entire development cycle with clean, scalable architecture.

SKILLS

Languages

JavaScript TypeScript

Frontend

React Redux / Redux Toolkit RTK Query Zustand TanStack Query MobX HTML5 CSS / Sass
Material UI Ant Design Formik Storybook

Mobile

React Native Expo React Navigation Firebase WebView CI/CD (Fastlane)

Backend

Node.js Express NestJS REST API GraphQL Socket.IO MongoDB PostgreSQL
JWT / Passport.js Docker

Tools

Git Jest / Unit testing Telegram Mini Apps SDK TON Connect Stripe

EXPERIENCE

Fullstack Developer — React, React Native, TypeScript, Node.js, NestJS

Sep 2021 – Present

I'm a fullstack developer with a love for clean architecture, maintainable code and well-crafted user interfaces. Projects developed in an MVP-first workflow — several are now in active user-acquisition stage.

MOBILE

- **Xinvest.** Built the Android app from scratch — base architecture and the full authentication flow (sign-in, registration, password recovery); integrated the web platform via WebView. React Native, React Navigation, react-native-webview
- **Praktika AI.** AI homework-helper app for iOS/Android — redesign, new features, and real-time chat via Socket.IO with media/document upload for AI analysis. React Native, MobX, Socket.IO, WebView
- **Bloyd.** Self-improvement community app — new features on iOS/Android, in-app payments with Stripe, Intercom support, maps and QR-based interactions. React Native, MobX, Stripe
- **Selector Events & Alemx.** Upgraded React Native versions, resolved dependency conflicts, optimized performance, and delivered large-scale premium redesigns and new features. React Native, Redux Toolkit / Zustand, TanStack Query, Expo
- **Autism: Fast Check.** Built an Android ASD-screening app from scratch with the validated ATEC questionnaire, scoring logic, and multi-language localization. React Native, Expo, Expo Router, i18next
- **Nomo Trading Academy & Tap-Table.** End-to-end development and production deployment of an investing-education app and a restaurant table-booking service. React Native, Redux Toolkit, React Navigation

WEB / TELEGRAM MINI APPS / BACKEND

- **InvestMatch.** Built the frontend of a Telegram Mini App with the Telegram Web App API and adaptive theming; built the backend from scratch (JWT auth, Inversify DI) plus a companion Telegram bot. React, TypeScript, Telegram Mini Apps SDK, TON Connect, Node.js, Express, MongoDB, Grammy
- **Supogram.** Interactive browser game with instant UI-state updates, optimized for smooth 60 FPS gameplay and integrated into the main site. React, TypeScript, Vite, Framer Motion

EDUCATION

2025 – 2026

IT-Incubator

Backend Developer track — NestJS, Node.js, PostgreSQL, MongoDB

2021 – 2022

IT-Incubator

Frontend Developer track — React, React Native, TypeScript

2011 – 2016

Belarusian National Technical University

Logistics

LANGUAGES

Russian

Native

English

Pre-Intermediate (in progress, Duolingo)
